# HPI-3010

## Protocol Converter

*Replace the matrix printer on your Universal Station with a standard USB laser printer*

---

### A Proven Alternative for Your Honeywell TDC 3000 Printer...

The HPI-3010 Protocol Converter is a USB version of the HPI-3000 Protocol Converter - the printer interface for Honeywell Universal Stations which has been sold by WPC since 1996. The HPI-3010 lets you replace the Honeywell matrix printer on your Universal Station with virtually any Hewlett Packard-compatible USB printer. Choose almost any LaserJet or DeskJet printer from HP - or any other printer compatible with HP's PCL3, PLC5, or PLC6. Take advantage of the low cost, high quality and reliability of today's best printers to enhance your Honeywell Universal Station.

### A Simple, Hardware-Only Solution...

The HPI-3010 connects to most Universal Stations using a standard serial cable (25-pin cable supplied with the unit). The printer connects to the other side of the interface (a 4½" x 2¾" x 1" box) using a standard USB cable (also supplied with the unit). Power to the HPI-3010 is supplied by a standard 9V adapter plugged in to a 110VAC or 240VAC outlet (different adapters for each application).

For LaserJet, DeskJet, and narrow-carriage matrix printers using 8½" x 11" or A4 size paper, all printed text uses a compressed font, to accommodate the narrower paper width.

### Fast, Reliable, Affordable...

The protocol translation introduces absolutely minimal time delay to the printing process. The time required to generate a printout is governed by the Universal Station and the speed of the printer you choose. A complex screen print to a typical laser printer takes 45 seconds, for example.

The HPI-3010 is based on a simple, rugged, trouble-free design that has developed a reputation for reliability in the field.

The HPI-3010 is your most versatile, cost-effective USB alternative to the original matrix printer offered by the manufacturer.

### Guaranteed...

Order an HPI-3010 today. If for any reason you are not satisfied with the product, return it within 30 days for a full refund. Product limited warranty one year from date of shipment.
